## Get ready for the biggest and best pet walk in Seminole County!!! **THE 10TH ANNUAL WIGGLE WAGGLE WALK**

### Saturday, October 23<sup>rd</sup>

Lace up those walking shoes on and grab your leash...It's time to wiggle, waggle and walk for the animals in Central Florida!

The SPCA of Central Florida is planning the 10<sup>th</sup> Annual "Wiggle Waggle Walk"...a walk *for* the animals and *with* the animals! All family members are invited to help raise money for a very good cause. And remember all funds stay local, right here in the heart of Central Florida.

**NEW LOCATION FOR 2010  
Cranes Roost, Uptown Altamonte**

#### Walk as a "Pack"

A Pack is a group of two or more people who walk together (friends, neighbors, colleagues, classmates, family members, groups, and so on). Packs must raise at least \$500 (for example, five people raising \$100 each). Each Pack will get its name on a sign to carry at the walk, a group photo, and pack members will qualify for individual

This year there will be even more surprises and things to bark about! The morning will start with registration at 9 am and the walk will step-off at 10 am. And from 10 am – Noon, our bigger and better venue for 2010, Cranes Roost at Uptown Altamonte, will be brimming with fun and educational pet demonstrations, interactive contests and lots of giveaways you won't want to miss. In addition, local "Business Buddies" will be on hand with plenty of information on the latest animal care and pet-related merchandise for your wet nosed friends!

Mark your calendar today and visit [www.SeminolePets.com](http://www.SeminolePets.com) to learn more about this exciting event! You won't want to miss the biggest and best pet walk in Seminole County! The Walk, which welcomed almost 1,000 people and 450 dogs in 2010, is getting bigger and better every year! This year our goal is to raise \$80,000, but we really need your help!

premiums and prizes! So grab your friends and jump on-line today at [www.SeminolePets.com](http://www.SeminolePets.com) to start your very own "Pack" page!

#### Walk as an Individual

A minimum donation applies to all walk participants. Adults - \$25, Children (12 or younger with paid adult) - \$10. The more money a walker raises, the more "goodies" or premiums the walker earns. Just remember, premiums are while supplies last, so you may want to pre-register! (Look at our website [www.SeminolePets.com](http://www.SeminolePets.com) for information on how to register and track your donations.) The top "FUNdraisers" in both individual and pack categories receive additional premiums!

#### Be a Volunteer at the Walk

Want to lend a helping hand? We are looking for people with different skills to help with everything from set up, to registration, to the food table, handing out premiums, and even lending a helping hand as we tidy up the park! To volunteer

Want to learn more about "Wiggle Waggle Walk" in general? Here are just a few ways you can lend a hand...or a helpful paw at this year's event:

Visit [www.OrlandoPets.org](http://www.OrlandoPets.org) to learn more and to purchase your ticket today!

I looked at all the caged animals in the shelter...the cast-offs of human society. I saw in their eyes love and hope, fear and dread, sadness, and betrayal. And I was angry.

"God," I said, "this is terrible! Why don't you do something?"

God was silent for a moment, and then spoke softly, "I have done something," was the reply.

"I created you."

Thanks to Central Florida SPCA and all of You who were created to Do Something.

*Bridget Willoughby & Douglas Glicken*

# Heartworm Disease: A serious and potentially fatal disease

The life cycle of the heartworm begins when an infected dog, carrying tiny immature heartworms (microfilariae) circulating in its blood, is bitten by a mosquito. The mosquito takes in microfilariae (larvae) when it feeds.

During the next two-three weeks, the larvae develop within the mosquito into the infective stage. When the mosquito feeds again, it can transmit infective larvae to the healthy dog. The larvae penetrate the dog's skin and migrate through the tissues and develop over the next few months, eventually reaching the dog's heart.

Once in the dog's heart, the worms can grow to as long as 14 inches and cause significant damage to the heart, lungs and other vital organs. If left untreated, heartworm disease can result in death.

## Heartworm FAQs

### **Can my dog get heartworm disease?**

Yes. Your dog can get heartworm disease, whether he's an "outside" dog or even if he stays inside most of the time. Dogs get heartworm disease from mosquitoes. It is the female mosquito that bites and transmits the infection. Female mosquitoes are very tiny and can easily slip through cracks around windows, doors or screens. Every dog can be at risk, indoors or out.

### **Are some dogs more susceptible than others?**

Unfortunately, no dog, or breed of dog, is immune to heartworm disease. The mosquito that bites your dog could be carrying this common and deadly parasite. One bite from an infected mosquito is all it takes for your dog to become infected.

### **How can I know for sure if my dog already has heartworm?**

The only way to know for sure is to have your family veterinarian examine and test your dog. The procedure is quick and easy. Don't delay in calling your veterinarian to arrange for a heartworm test. If your dog gets heartworm disease, treatment can be dangerous for him and expensive for you.

Signs of heartworm disease include signs associated with right heart failure. Coughing, sluggishness, labored breathing, and ascites (accumulation of fluid in the abdomen) may occur in the disease in its advanced stages.

### **When is the right time to get my dog tested?**

Mosquitoes, the carriers of heartworm disease, can be found at varying times of the year depending on the climate. Ask your veterinarian when the best time is to have your dog tested.

### **How can I prevent my dog from getting heartworm disease in the future?**

If your veterinarian determines that your dog is free of heartworms, he or she will tell you how easy and convenient prevention can be. It's important to follow your veterinarian's instructions; if you don't, your dog could still be at risk. Remember, the first, most important step is to have your dog tested for heartworms.

Heartworm prevention can be accomplished in several different ways. Daily medication or monthly preventatives are usually the methods of choice. These medications are available by prescription from your veterinarian and should not be started without either a blood test or your veterinarian's approval. As with most diseases which affect the animal kingdom, an ounce of prevention usually beats a pound of cure. If an animal tests positive for heart worm, treatment is available but at a cost which is normally 10 - 20 times as much as annual prevention would be.

# 19th Annual "FurBall" 2010

Whatever happened at "FurBall" stayed at "FurBall" this year . . . or did it?

The 19th Annual "FurBall" was held on Saturday, May 1st, at SeaWorld's Ports of Call, and this year's theme of "It's Vegas, Baby" was played to the extreme. Elvis was on hand for the festivities and the party did not stop...until he left the building!

The evening kicked off with our VIP Reception at 4:30 pm, and guests were able to enjoy a "private" showing of exotic animals from SeaWorld Orlando with Joel Slavin's trainers. Folks also tested their luck at a casino game or two, vying to win big so they could cash in their loot for those prized raffle tickets. With raffle items like a Capital Grille Dinner & Gift Basket, Tiffany's necklaces, or even a once in a lifetime trip to Discovery Cove, it was hard not to keep filling those glass bowls with tickets! The VIP's also got a "private" Elvis concert performed by the one, the only, Elvis himself! Elvis sang a medley of songs that kept folks' toes tapping and the mood just right for our evening in Vegas.

Following the VIP Reception, the doors of Ports of Call opened at SeaWorld Orlando to the biggest and best silent auction in Central Florida! Tables overflowed with everything from golf packages, original oil paintings, hotel stays all across the United States, beauty & spa services, pet beds and cat trees for your "favorite" family members, and more! Bidding was intense too! And if you have yet to experience "FurBall" for yourself... you are missing out! With over 300 auction items, year after year, and deals galore, your price of admission is a great deal! You can stock up on something for everyone and anyone and take care of your whole holiday shopping list in May!

And just when you think you have seen it all, the live auction started! The live auction included everything from a billboard with your pet to promote the SPCA of Central Florida, to the front of our prestigious 2011 calendar. We even had a trip to Colorado with airfare on AirTran Airways, a girl's night out on the town at the Sonesta Hotel (alcohol and limo for the girls included!) and a party at Universal Orlando with your own float at their Mardi Gras 2011 Parade!

Once the competitive bidding for the live auction finished, guests were treated to an "inside" look at one of the success stories here at the SPCA of Central Florida. It started with a mama dog, poorly cared for and just given birth to a litter of puppies. Dropped off and all doggies on the brink of death, the Sanford staff & volunteers stepped up and fostered each and every pup. Their health improved, and the Mom's health too, and now they are all placed in loving, caring, "forever" homes. To see their wagging tails on the stage that night, and each and every person that cared for these little ones, was an amazing witness to

the hard work, dedication and compassion of our SPCA staff & volunteers.

Afterwards the guests made their way to the "Pets Ahoy" show at SeaWorld Orlando. Joel Slavin and his talented crew showcased the amazing talents of their performing cats & dogs. And did you know that a few of the animals used in the show are from the SPCA of Central Florida? Next time you are at SeaWorld Orlando see this fabulous show. You won't be sorry! The night ended on a high note, with guests trying their talents for the 2010 "FurBall" Vegas trophies. The contests this year were: "Best Vegas Headliner", "Best Elvis", and "Biggest Hair"!

On behalf of the SPCA of Central Florida, we'd like to take this time to say "Thank you" to the companies and individuals who made "FurBall" 2010 a grand success! This year's event raised over \$160,000 for the community programs and shelter animals here at the SPCA of Central Florida

...to our friends at SeaWorld Orlando, WRDQ 27, Bayer Healthcare LLC, Bassin Center for Plastic Surgery, Lew Brooks with Keller Williams Heritage Realty... together we were able to create the best event in Central Florida!

...to our 2010 "Royal Flush" and "Full House" Sponsors, and each and every donor who contributed to our auction, you helped us reach new heights! We thank you for your overwhelming generosity!

...to our creative assistance team...Carolyn Ehlinger and Robin Fudali. They helped us tirelessly every weekend packaging, prepping and prettying each and every auction item. That's a lot of auction items! We are so grateful and wish to thank them for their dedication and tireless support every year.

...to the staff, volunteers and Board Members at the SPCA... they work tirelessly to make each event bigger and better than the one before... we are so very proud of each of you! Thank you, thank you, and thank you for being our awesome support system!

Next year, "FurBall" will be held at SeaWorld's Ports of Call on May 7th. Put this date in your i-phone, blackberry, or appointment calendar today so you won't miss this spectacular evening. Who knows what we have in store for next year... you'll have to stay tuned in to find out!

# Happy Hour Went to the Dogs for the SPCA of Central Florida!

In April 2010, Dog Day Afternoon Boarding, Doggie Daycare & Grooming held its 5th Annual Beer & Bones Brewhaha...a Happy Hour for Dogs & their People at its Sanford location. More than 100 people & their doggies attended this fun event that raised over \$2,800 for the SPCA of Central Florida!

Dogs snacked on doggie treats and cake from Paw Park Place and Pookie's Pet Nutrition & Bow Wow Bakery and were served "doggie beer". Human attendees enjoyed hors d'oeuvres from the WingHouse and dog-themed beer & wine from the Sanford Wine Company!

Fun activities included doggie paw painting & Musical Sit, the doggie version of Musical Chairs. Fabulous prizes included a doggie massage & human massage package & a "haircut for you & your dog". The grand prize was a year's worth of boarding at Dog Day Afternoon!

"Most people go out with friends on a Saturday night...and at the Beer & Bones Brewhaha, dogs got to hang out with their friends, too," said Emily Schlansky, owner of Dog Day Afternoon. "We look forward to our next Beer & Bones Brewhaha to benefit the animals at the SPCA of Central Florida."

Dog Day Afternoon has locations in downtown Sanford & downtown Orlando. [www.dogdayafternoon.net](http://www.dogdayafternoon.net)

# YOUR CAT... INDOORS OR OUT

If you want your cat to live a long and healthy life, keep her inside. If you allow your cat to wander around on her own, without your supervision, she is susceptible to any of the following tragedies:

- Being hit by a car
- Ingesting a deadly poison like antifreeze or a pesticide
- Being trapped by an unhappy neighbor
- Being attacked by a roaming dog, cat or wild animal
- Contracting a disease from another animal
- Becoming lost and unable to find her way home
- Being stolen
- Encountering an adult or child with cruel intentions.

The following are a sample of reasons people have provided for allowing their cat to be outdoors without their supervision, along with our comments and suggestions.

#### “I have a six-foot fence.”

Unless you have special fencing that’s designed to prevent a cat from climbing out, your cat will be able to scale your fence and escape the confines of your yard. Even if you do have special fencing, you need to make sure that it can keep other cats or animals from getting into your yard to get to your cat.

#### “My last cat went outdoors and he loved it.”

Your cat may enjoy being outdoors, but allowing him to go outside, unsupervised, is putting him at risk and shortening his life span. Most cats allowed to roam outdoors usually don’t live for more than a few years. Cats that live strictly indoors can live up to 18 - 20 years of age.

#### “My cat’s litter box smells.”

Scoop your cat’s litter box on a daily basis. The frequency with which you change the litter depends on the number of cats in your home, the number of litter boxes, and the type of litter you use. Twice a week is a general guideline for clay litter, but depending on the circumstances, you may need to change it every other day or once a week. Wash the litter box with soap and water every time you change the litter. Don’t use strong smelling chemicals or cleaning products when washing the litter box, as it may cause your cat to avoid it.

#### “My cat likes to sun herself.”

Your cat can sun herself by any window indoors. If you’re set on letting your cat sun herself outdoors, put her on a harness and leash and stay with her while she’s taking in the rays.

#### “I can’t keep him in.”

Keep your windows closed or put in screens. Remember to always keep your doors closed and teach your children the importance of keeping the doors closed, too. It may take a few days or a few weeks, but if there are enough interesting things for your cat to play with indoors, he’ll come to enjoy being indoors. Be sure to provide him with a scratching post and safe toys to bat or carry around.

#### “We’ve always let her out.”

You can change your cat’s behavior. It will take time and patience, but it might save her life. When you implement your “closed door” policy, give her a lot of extra attention and entertainment. At first she may cry, but don’t give in. Soon she’ll be happy to stay indoors with you.

#### “My cat knows to avoid cars.”

Even if this were true, all it would take is another car, a dog or a shiny object to lure your cat into the street and into the path of traffic. Also keep in mind that some people may not swerve to miss a cat in the road.

#### “My cat needs exercise and likes to play with other cats.”

Stray cats are likely to spread viruses like feline leukemia and other fatal diseases. If your cat needs a friend, adopt another cat that’s healthy and disease-free.

#### “My cat yowls and acts like he really needs to go outside.”

Your cat may be feeling the physiological need to mate. If this is the case, make sure your cat is neutered (males) or spayed (females). Sterilized cats don’t have the natural need to breed, and therefore, won’t be anxious to go out to find a mate.

# HOW TO KITTEN-PROOF YOUR HOME

**K**ittens are curious little tykes and love to explore nooks and crannies. Here are tips for making sure they don't find "toys" that can harm them.

## Here's How:

1. Look around your house first, at high shelves and low cupboards and hidden nooks. Do you see things that kitty might break, or harmful substances she might ingest?
2. If you're into needlework, keep your supplies in a closed container. Needles and thread might appear to be fine playthings, but can be fatal if your kitten swallows them.
3. Fold and secure your window blinds cord with a rubber band, out of kitty's reach. If she gets tangled up in it, she could strangle.
4. If you don't want to find your floors littered with garbage, invest in covered wastebaskets and kitchen garbage containers.
5. Always keep the door to your clothes dryer closed, and double-check inside before using it. Cats like to find dark, warm places to sleep, and the results could be tragic.
6. Keep the floor clean of stray rubber bands, ribbon and twine. All are hazardous when ingested by a kitten.
7. Keep cupboard doors and dresser drawers securely closed. Cats can find all kinds of mischief inside, and can be injured if you close a drawer and the kitten is behind it.

8. Cloth drapes are better left out of reach of your furry "curtain-climber". Tie them up securely until your kitten is trained to a scratching post.

9. Keep your toilet lid down at all times. Better yet, keep your bathroom off-limits to your kitten unless you absolutely have to keep her litterbox there.

10. Do not keep your kitten in the garage, and always keep the doors closed. Anti-freeze is very tasty to animals, and is just one of the common poisonous substances found in garages.

11. There are a number of household plants poisonous to cats. *A list is at the bottom of this article.*

12. Remove all breakable valuables from high shelves and store them in a cabinet with a door.
13. Cover electric cords, such as the tangle from your computer, with covers sold for that purpose. Caution: wrapping electric cords could be a fire hazard.

## Tips:

1. The real secret to kitten-proofing is to look at your home through the eyes of a cat. Find everything that looks like a swell toy, and if it's something harmful, get rid of it or make it safe.
2. Bitter Apple or lemon-scented sprays are both great for marking areas you want to be off-limits. Cats hate the taste and/or scent of them.

The following is a partial list of plants that are poisonous or hazardous to your cats, including some popular holiday plants: Amaryllis, Azalea, Cactus, Caladium, Creeping Charlie, Easter Lily, Dieffenbachia, Ivy, Mistletoe, Philodendron, and Poinsettia.

## If You Think Your Cat Has Been Poisoned

Contact your veterinarian or the ASPCA National Animal Poison Control Center at 1-900-443-0000 or **1-888-426-4435**. (The charge is billed directly to caller's phone. \$45.00 per case, credit card only.) Follow-up calls can be made for no additional charge by dialing **888-299-2973**.
